

## Industry Interaction –Work Shop

**From 8-12-2011 to 11-12-2011**

One of the unique features of the FABS PGDM (Agri- Business) programme includes practical engagement with industry. As a part of our programme FABS will expose students to real life managerial issues. **The Industry Interaction –Work Shop** series objective is to enable the students gain an understanding of how an organization is structured and managed and sensitize students to the culture of an organization. It provides an opportunity to the students to network with professionals in the field which will be useful to further their career prospects.
